## TWO PERSONS SHOT OVER LOVE AFFAIR

Mrs. Bertha McGovern and Roland Dickson Are in Hospital with Bullet Wounds

### STORIES ARE CONFLICTING

Woman Says She Attempted to Kill Herself, while the Man Says She Shot at Him

What was either intended as an attempted suicide or a murder and suicide occurred last night about 11 o'clock at the home of Mrs. Bertha McGovern, 418 Avon street, and as a result Mrs. McGovern and Roland Dickson of Dresbach, Minn., are in the hospital, suffering from bullet wounds. Both will recover, according to reports of the attending physicians.

Mrs. McGovern, who is a widow, residing with her sister on the north side, and Dickson, have been keeping company, it is alleged, and for several days past they have been quarrelling. Conflicting statements were given out by the man and the woman, as to how the shooting happened, but in either case the woman attempted to kill herself.

The first information regarding the shooting was received at the central police station at 10:30 when a neighbor telephoned that three shots had been fired at the McGovern house and that it was feared something had happened. Officers Fitzsimmons and Yehle hurried to the house and found Mrs. McGovern in bed, suffering from two bullet wounds, one in the abdomen and the other above the heart. In each case the bullets struck corner stools thus saving her life. Dr. G. J. Egan had been notified and hurried to the house, accompanied by Chief Webster. The woman was removed to St. Francis hospital where she told the chief that she had attempted to kill herself in the presence of Dickson, but that he took the revolver away from her.

Dickson Makes Escape  
Dickson, who ran from the house after the shooting, tells a different story. He says Mrs. McGovern telephoned him to come to her house because she was sick. He went from his rooming place, 420 North Fourth street, to the north side on a bicycle. Upon entering the house, according to his story, Mrs. McGovern locked the door and stepped to one side. He noticed she had something in her hand behind her and he asked what she had, whereupon she pointed the revolver at him and he immediately started to take it away from her. In the scuffle the weapon was discharged, the bullet striking the tip of his finger and entering the groin. He then started for the back door, which had also been bolted. While opening the door he dropped the revolver on the floor and then kicked it into the yard and made his escape. He says there was only one shot fired up to that time.

Woman Follows Him  
Dickson further says that after he left the house he ran down the street, the woman following him to the corner. He went to the home of a neighbor and said he had been shot and asked to be taken to the La Crosse hospital. A lively rig was ordered and the injured man was taken to the hospital.

Dickson believes Mrs. McGovern returned to the house and hunted for the revolver and then attempted to shoot herself.

## IS KIDNAPPED ON MARRIAGE PROMISE

Toledo, Ohio, Girl Forced to Beat Way on Trains with Hobo as a Man

### IS RESCUED BY TRAMPS

Boarder Told Her He Wanted to Marry Her, Burned Her Clothes and Forced Odd Trip

BELLEVILLE, Kan., July 7.—Rescued from a freight train by three tramps and turned over to the local police, Beatrice Fanning, an attractive 19 year old girl of Toledo, O., told the officers today a pitiful story of leaving her home with Cameron Keener, also of Toledo, and of being forced to beat her way on freight trains disguised as a man until finally rescued. Keener burned her clothes when she endeavored to escape, Miss Fanning said, and she was compelled to don male attire.

Keener, Miss Fanning told the police, carried a razor, a knife and a revolver and threatened to kill her if she attempted to escape or tell anyone of her sex while they were on the freight trains.

At Topeka the girl told the police, she endeavored to get away, but Keener choked her and beat her into submission. A hobo who was in the freight car endeavored to defend her, Miss Fanning related, but Keener drove him off with a revolver.

At Manhattan, Louis Evans and two other men who were beating their way to the harvest fields, got into the same freight car with the couple. The girl managed to tell Evans that she was a woman and wanted to get away. Evans told the other two men and when the party got off the freight car in the Belleville yards the three men attacked Keener, who after some resistance, fled, and has not yet been captured.

To the police here Miss Fanning said today: "Cameron boarded at our house in Toledo. We became engaged, and Cameron declared he wanted to be married at the home of his mother, in Steamboat Springs, Col. He persuaded my parents that everything would be all right and we left home a month ago."

"I soon found out he did not intend to marry me and tried to escape at East St. Louis, Ill. He took my clothes and burned them and gave me some of his to wear. After we left St. Louis, we beat our way on freight trains and I was afraid to tell anybody I was not a man, because he said he would kill me."

"After he beat me at Topeka, I did not care whether he killed me or not, so I told."

Belleville citizens furnished money and clothing today so that the girl could return to her mother in Toledo.

## COMMISSION MAKES ANOTHER REDUCTION

WASHINGTON, D. C., July 7.—The interstate commerce commission today ordered a reduction in freight rates from Cincinnati, O., Roanoke, Va., and Lynchburg, Va., to Winston, Salem and Durham, N. C.

The decision was rendered in the case of the corporation commission of North Carolina against the Norfolk and Western and several other roads. The interstate commerce commission refused to sustain the charges of the corporation commission that railroads showed discrimination to these two North Carolina points, as compared to Virginian cities, but ordered the reductions.

## \$250,000 FOR YERKES LAWYER

CHICAGO, July 7.—Recommending that Atty. C. A. Knight be awarded \$250,000 for settling the estate of Charles T. Yerkes, the traction magnate, R. W. Browning, master in chancery, today appeared in the probate court.

"Mrs. Yerkes was in a state of mental irresponsibility following her husband's death," Browning said, "and was continually hiring different lawyers. Attorney Knight saved the estate for her."

Decision was reserved.

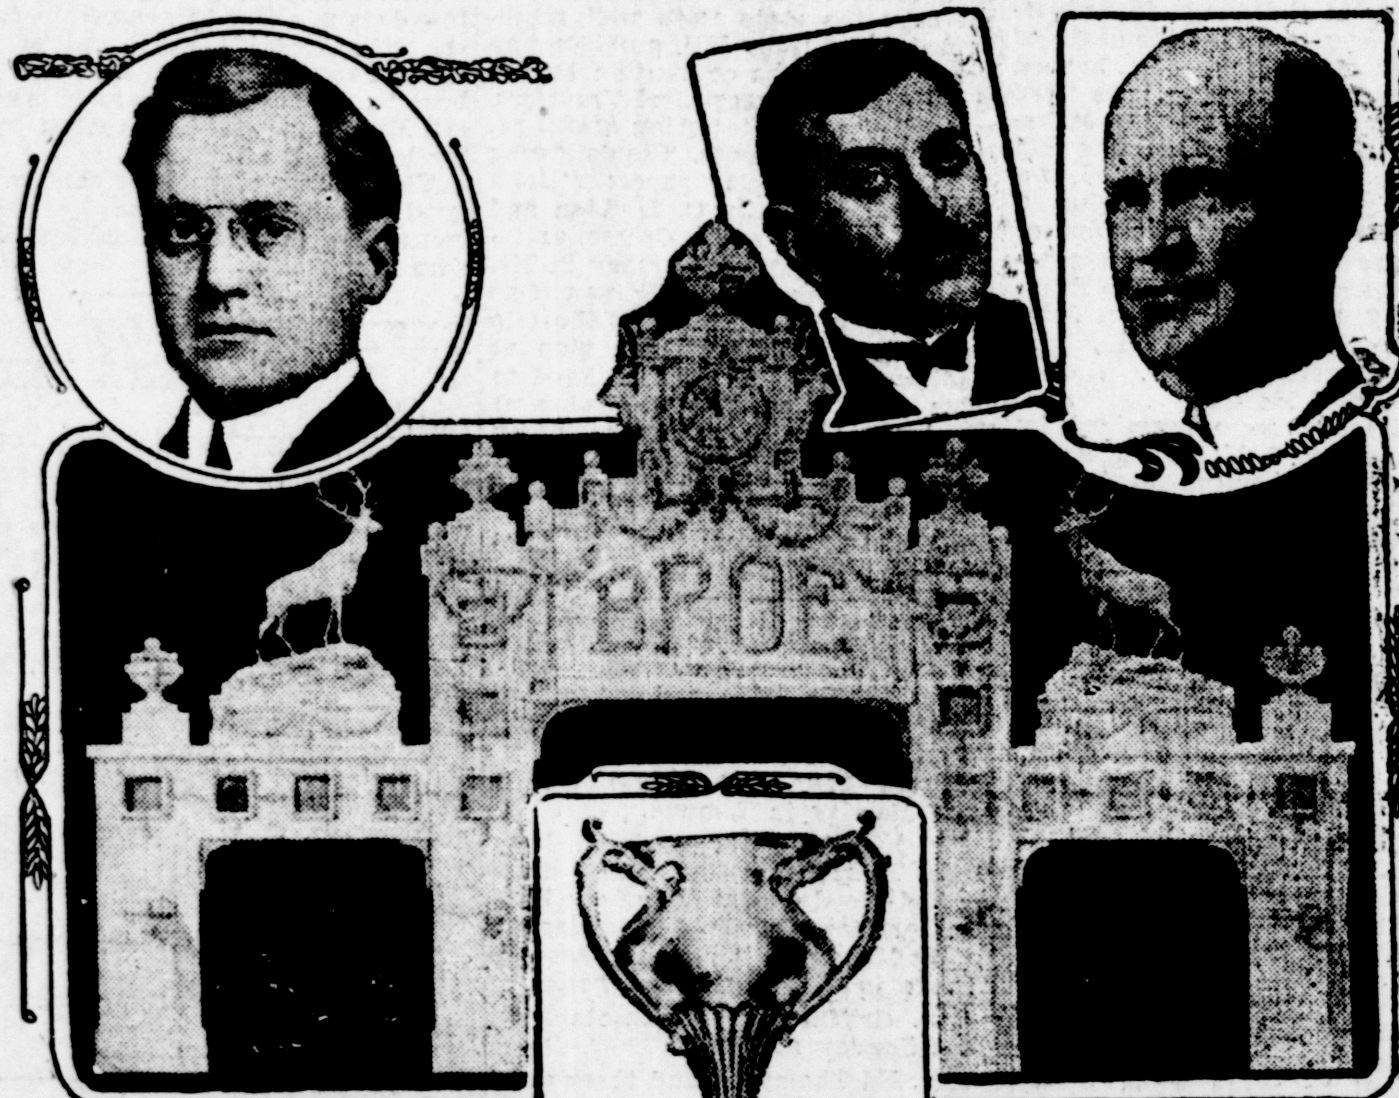

## TEXAS CENSUS RETURNS

## CATHOLICS CLOSE CONVENTION

## DETROIT IS PREPARING FOR THE BIG ELKS CONVENTION

## GOVERNORS JOIN IN PICTURE BAN

Nearly All in Sympathy and Most will Try to Stop Exhibit of White Man's Defeat

BOSTON, July 7.—Some of the replies received from governors of various states to whom Secretary Shaw of the Christian Endeavor Society appealed to prevent exhibition of the Jeffries-Johnson fight pictures in their states are as follows:

Richmond, Va.—I am opposed to the exhibition of motion pictures of the Jeffries-Johnson prize fight and will join governors in recommending prohibition of them.—William Hodges Mann, governor.

Springfield, Ill.—In governor Deen's absence, speaking for him, I am sure he is in sympathy with the movement to prevent the exhibition of moving pictures of the Jeffries-Johnson prize fight.—James Whitaker, secretary to the governor.

Charleston, S. C.—Yes I will join other governors in recommending the prohibition of moving pictures shown of Johnson-Jeffries prize fight.—M. F. Ansell, governor.

Providence, R. I.—Moving picture exhibitions in this state are controlled by the town and city license system. It has not been the custom of the governor to interfere with regulations prescribed in the town or city, or usurp their prerogative save in extreme cases.—A. J. Potter, governor.

Little Rock, Ark.—Will gladly co-operate in movement to suppress moving pictures prize fight.—G. W. Donaghey, governor.

Augusta, Maine.—I am glad to join the governors in recommending that moving pictures of the fight be prohibited in the interests of peace and good morals.—Bert M. Fernald, governor.

Salt Lake City, Utah.—Prohibition of fight pictures as you suggest is impracticable. Before legislature convenes pictures will have been exhibited the world over.—William Spry, governor.

Helena, Mont.—Laws of Montana do not seem sufficiently specific to prevent exhibition of the fight pictures. I believe such a prohibition conserves no useful purpose and may in many instances produce harmful results. I should be glad to know such pictures were not to be shown in this state.—Edwin L. Norris, governor.

Lansing, Mich.—Legal department of Michigan holds moving picture shows not prohibited by state law, can be suppressed if necessary by mayors and chief of police acting under city ordinances. Fred M. Warner, governor.

Montgomery, Ala.—I will take pleasure in recommending the prohibition of the exhibition of prize fight in moving pictures.—D. B. Comer, governor.

Minneapolis Bars Pictures  
MINNEAPOLIS, Minn., July 7.—Mayor Jas. C. O'Connell today notified theaters that the Jeffries-Johnson fight pictures will not be permitted in Minneapolis. Gov. Eberhart is seeking a law under which they may be barred from the state.

Picture Men to Fight  
NEW YORK, July 7.—The right of communities or states to bar the exhibition of the moving pictures of the Jeffries-Johnson fight at Reno, will be tested in the courts.

S. Lubin, the Philadelphia millionaire moving picture man, who heads the syndicate, said today:

"We have spent too much money not to make a fight to exhibit our pictures, and we are confident that the efforts to prevent us showing them will not succeed, when the courts interpret the laws bearing on this." (Continued on Page Six)

## MOSQUITOES STOP BUSINESS IN TEXAS

All Outside Work Practically Abandoned Owing to Pest, and Cattle Are Going Crazy

GALVESTON, Texas, July 7.—This is mosquito year along the Texas coast and advice reaching Galveston today from Port Arthur and other coast towns say that the mosquitoes have caused nearly all outside work to be abandoned.

A schooner captain in from Sabine declared that a young woman at that point had to have her leg amputated as a result of blood poisoning from mosquito bites. A captain of a lumber schooner was caught in a swarm of the insects while going to his schooner in a small boat and was found later exhausted and blindly fighting the pests. He is now under the care of a physician and swears the mosquitoes were as big as bats.

At Port Arthur men in the refineries have been driven from work and many lumber camps have been entirely abandoned. Cattle and other livestock are going crazy from the torture inflicted by the mosquitoes, as thousands swarm about the animals. Many dead bodies have been seen floating in the gulf, the animals having been driven into the water for relief.

## NEW WORLD RECORD MADE BY AIRSHIP

RHEIMS, France, July 7.—Herbert Latham broke the world's aeroplane record for 200 kilometers here today, making the distance, 124.2 miles, in two hours and 46 minutes.

Ollivier, a Belgian aviator, set out to break Henri Farman's record of 4:06:26 continuous flight. At 5 this afternoon he had been in the air three hours and thirty-nine minutes and his machine seemed to be working perfectly. He had then covered 170 miles, a new record for the distance. Farman made his record at Mourmelon, France, last November.

With the air full of aeroplanes, two accidents from collisions occurred. At one time twenty-two machines were dodging and swooping over the Bethany Plain. The air craft gave the appearance of a flock of giant birds swooping down on the field.

## NEGRO BARELY ESCAPES LYNCHING

CINCINNATI, O., July 7.—John Williams, 22, negro of Lexington, Ky., was arrested early today after he had attacked and beaten Mrs. Katherine Perry, white, in her own home. A race riot threatened before the negro was locked up on a charge of house breaking.

The negro entered the Perry home through an open window. When the negro was led through the streets by the policeman that captured him, a crowd of negroes collected and demanded the release of Williams, brandishing clubs and knives.

White men gathered and the police had difficulty in keeping them from lynching the negro. Both blacks and whites were scattered when the police drew revolvers and charged the mob.

## WINNIPEG OARSMEN WIN

LONDON, July 7.—In the Henley regatta today the crew of the Winnipeg Rowing club defeated the Mayence, Germany crew in the final for the Steward's plate by two lengths. The time was seven minutes and 52 seconds.

## TRAGEDY TRACKS DOMESTIC STORM

Mother Shoots Husband and Child, then Drinks Carbolic Acid Herself

### HAD OTHER WOMEN FRIENDS

So After Continued Spree Master of House Comes Home and Is Met with Bullets

CHICAGO, July 7.—Mrs. Emma Mulsaw is dead, her husband, Henry Mulsaw, 24, and their daughter Annabelle, 3, are both dying as the result of a domestic tragedy enacted at the Mulsaw home early today.

Mrs. Mulsaw shot her husband and child and then took carbolic acid. She died on the way to the hospital. Mulsaw and the girl will die.

Mulsaw, neighbors declare, had been out all night drinking and carousing. When he arrived home at 4 o'clock this morning his wife met him at the front door. She fired two shots into his abdomen. The daughter was shot once in the back.

A note left by the woman declared she could not stand her husband's drinking any longer. She asked that her daughter be buried with her. Neighbors say that Mulsaw had failed to provide for the family for several weeks.

### Dissipated for Weeks

Mulsaw has been employed as a street car conductor. His wife became jealous because of the attention he paid to other women and when she upbraided him for it last night he left the house and did not return until 4 o'clock this morning. Neighbors said he had been dissipating for weeks and that his wife was driven to the verge of insanity by worry and jealousy.

When the young man returned home this morning he was met at the door by Mrs. Mulsaw, who shot him twice through the abdomen. The woman then rushed into the house and shot her little daughter and then ended her own life by drinking carbolic acid.

Mulsaw and his daughter were taken to a hospital but there is no hope for their recovery.

### Leaves Several Notes

That Mrs. Mulsaw had carefully planned her act was shown by a number of notes she left. One was addressed to the public, and stated that she did the shooting with a revolver she had borrowed from her father, J. V. Depeling, who did not know what purpose she intended to put it to.

Another note, addressed to her father said:

"I hope you will forgive me for what I have done. I was too good for Harry. Bury Annabelle with me."

"On July 3 Harry came home and told me he was going to lay off to visit some friends. I asked him who, but he would not tell me. I asked him to take Annabelle and me out but he refused and struck me and told me to 'go to hell.' I think his friends were women, for he has been paying too much attention to other women recently."

## PULLMANS WANT REDUCTION STOPPED

CHICAGO, July 7.—Contending that the interstate commerce commission's orders for a reduction in sleeping car rates is confiscatory, attorneys representing the Pullman company and the railroads today appeared in the United States circuit court to argue for a rehearing of their petition of an injunction to prevent the order being put into effect. An injunction was previously denied them but they seek to reopen the case on the ground that they have new facts to present.

Attorney Fernald of the Pullman company told the court that the new schedule of rates would ultimately mean bankruptcy for the sleeping car companies. It would mean a loss of \$116,000 annually on fares between St. Paul and the points of Fargo, N. D., and Seattle, Wash., alone, he said. The reduction from St. Paul to Fargo is 40 per cent on upper berths and 25 per cent on lowers and from St. Paul to Seattle the fare is lowered 29 per cent on the uppers and 16 2-3 per cent on the lowers.

## ROOSEVELT TALKS OF HIS BIG HUNT

OYSTER BAY, N. Y., July 7.—Explaining his conquest of the game of Africa to John Burroughs and talking civil service with Wm. Dudley Foulke, former civil service commissioner, occupied most of Colonel Roosevelt's time during the early hours today.

### BRANDS STORY FALSE

NEW YORK, July 7.—At the special request of Theodore Roosevelt, Gilson Gardner gave out a statement branding as false a story sent from Oyster Bay regarding Roosevelt's alleged endorsement of the senatorial candidacy of Representative Poindexter of Washington. Poindexter made no mention of the senatorial contest.

## CHARITY CURSES WORKING GIRLS

Helps Employers to Advise Them to "Get a Gentleman Friend," Says Organizer

### UNIONS IS THEIR ONLY HOPE

So Long as Charity Cheapens Living, So Long will the Employer Profit Off of Virtue

NEW YORK, July 7.—"Semi-Philanthropic hotels and homes for working girls, though they have a beautiful sentiment behind them, actually help the employer to keep down wages, and so damage the women they are intended to aid."

So says Mrs. Eva McDonald Valesh, general organizer of working women for the American Federation of Labor, in which Miss Anna Morgan, daughter of J. Pierpont Morgan, is a leading factor. Replying to the statement made by the countess of Carlisle that America produces annually thousands of young women who become wage earners simply because they are tired of home and not because they have to work, Mrs. Valesh said today:

"I have never known one woman who worked for a living for any other reason than that necessity compelled. Women with money may go in for the arts, medicine, or law, but tradeswomen work only because they have to."

"And how frightfully underpaid these women are. Today the employer who is urged to pay a living wage can shrug his shoulders and reply 'What is a living wage?' I pay girls what they are willing to work for. Even more frequent than the man who tells a girl to get a 'gentleman friend'—she cannot live on \$4.50 a week—the average pay of the women in the industries—is the employer who says: 'Oh, yes, you can manage on \$4.50 a week. You can board at somebodys settlement home for \$3.50 a week.'"

"Our object is to better general conditions, to raise wages by organization. No amount of philanthropy ever raised wages. In fact it lowers them. The only thing that ever raised wages in this world is unions. Workingwomen need more money. Pretty clothes and a few luxuries are as much necessities of youth as food and sunshine and shelter."

## PROBE CHARGE OF MISSING SECURITIES

NEW YORK, July 7.—The grand jury was still investigating today the charge of Clarence E. Wellborn that \$400,000 worth of securities deposited by him with the Carnegie Trust Company had been re-hypothecated and later sold on Wall street. Wellborn's statement that the bonds had disappeared is flatly contradicted by the officials of the trust company. President Reichmann stated today that he had \$300,000 of the bonds; that they were pledged for a loan of \$58,000 instead of \$25,000 as Wellborn has stated and that the matter is a dispute between Wellborn and his broker with which the trust company can have no concern. If he wants the bonds, that the Carnegie Company holds, Reichmann said today, all Wellborn need do is to take up his loan and they will be turned over to him.

### The Influence

of newspaper advertising is wonderful.

It makes small stores great.

It turns the tide of business toward the advertised store as nothing else will.

It places the name of the store so strongly in the minds of the people that they can not think of dry goods, clothing, shoes or drugs without the name of that advertised store coming to their minds simultaneously.

By a good, persistent advertising campaign any business house can push its way to the front.

The very best medium to use in this community is The Tribune, as it goes to the people when their minds are easily impressed.

## Keep Baby Healthy in Summer

It is easier to keep some children in health in winter than in summer. And yet it is very important that the child should be strong and well during the hot weather. In the first place, a very little ill is liable to develop into a large one in summer because of the germs in milk, water and many kinds of food. You should be especially careful not to allow your children to become irregular in their stools during the heated term. The best relief you can give it, and the surest permanent cure, is Dr. Caldwell's Syrup Pepsin. It is exactly suited to the needs of children because it is gentle and mild in action, absolutely pure and free from narcotics, pleasant to take, and yet does its work promptly and efficiently. Thousands of mothers keep it constantly in the house against emergencies, and as a bottle costs only 50 cents or \$1.00, and can be conveniently obtained of any druggist, no family should be without it. If you are one who has never tried Dr. Caldwell's Syrup Pepsin and would like to do so before buying it in the regular way, you can obtain a FREE BOTTLE by sending your address to

## FEDERAL PROBE OF "J. S." DISASTER

Coroner's Jury Recommends U. S. Grand Jury Decide Question of Negligence

Late yesterday afternoon the coroner's jury at Caledonia, investigating the circumstances of the death of John Plein of Lansing, Iowa, burned to death while alleged to have been imprisoned in the hold of the excursion boat J. S. when it burned and sunk near Victory on June 25, returned a verdict recommending a federal grand jury investigation of the disaster to determine the question of negligence of the Acme Packing company, the owners; Capt. John Streckfus of Rock Island, Ill., and the other officers and crew.

"Let Me Out" Ten witnesses were examined by District Attorney O. K. Dahl of Houston county, Minn. Witnesses for the company, including the mate and the ice cream privilege man, swore the hold was electric lighted and the gates were open and that Plein could have escaped. Heretofore they had said he was released before the fire. Witnesses against the company testified to having heard some one call: "Let me out, let me out," during the fire, and they believe it was Plein, who was still confined in the hull.

Same as Slocum This action was identical to that taken by the coroner's jury in New York, following the Gen. Slocum disaster. No arrests will now be made until after the grand jury hears the case and returns possible indictments. It is not known what federal grand jury will hear the circumstances, but it is probable the investigation will be made when U. S. court convenes in this city again.

Erhart of this city was honored by being elected president of the organization. Besides Mr. Erhart, John Kindley and C. L. Lien were in attendance from La Crosse. The meeting proved to be one of the most interesting of any held to date and the druggists from all over the state were well represented. The Daily Pill, a publication issued during the convention by the Wisconsin Pharmaceutical Travelers, was filled with interesting gossip regarding the delegates. The following is taken from that paper: "John Kindley and family C. L. Lien and O. T. Erhart all of La Crosse, arrived at the convention Tuesday in the morning. The French touring car of the trip of the amusing incidents of the trip was that Mr. Lien on the stop at Madison over night was assigned to room 23, Skidoo. "I simply called to pay my respects and had a very pleasant visit," said Newell. "I cannot make any statement further."

Newell made it clear today that if he is to go he will have to be dismissed. Newell and Davis have supported the Roosevelt-Pinchot policies.

"I will not resign," was the short emphatic statement with which Newell met all queries. The changes in the reclamation service will probably begin when the new army board convenes in Washington about July 20.

### TAFT TO TAKE REAL VACATION

BEVERLY, Mass., July 7.—Evidence that President Taft is going to have a real sure enough vacation this summer came today with the announcement that the executive and his whole family are to take a ten days' cruise along the New England coast. The departure will be made

from Beverly about July 18, aboard the Mayflower. Bar Harbor and other shore resorts will be visited. It is possible the Sylph will also be taken in on the cruise.

President Taft did not get away early to the Myopia golf links today, but probably will motor across later with Captain Butt and play with John Hays Hammond or Henry Clay Frick.

Reports have been current here that President Taft is considering the calling of a special session of the senate to confirm the nomination of a new chief justice of the United States, in order that the big trust cases now pending may be passed on as soon as possible. As this special session would cost \$50,000 and would probably not be called in any event until the expiration of the enabling act, passed to allow Justice Moody to retire, should he desire to do so, the talk of a special session is believed to be without foundation.

Mr. Moody's time for decision is not up till November and to save a month on the hearing of the trust cases would hardly warrant the calling of the special session. No official statement in the matter has been made.

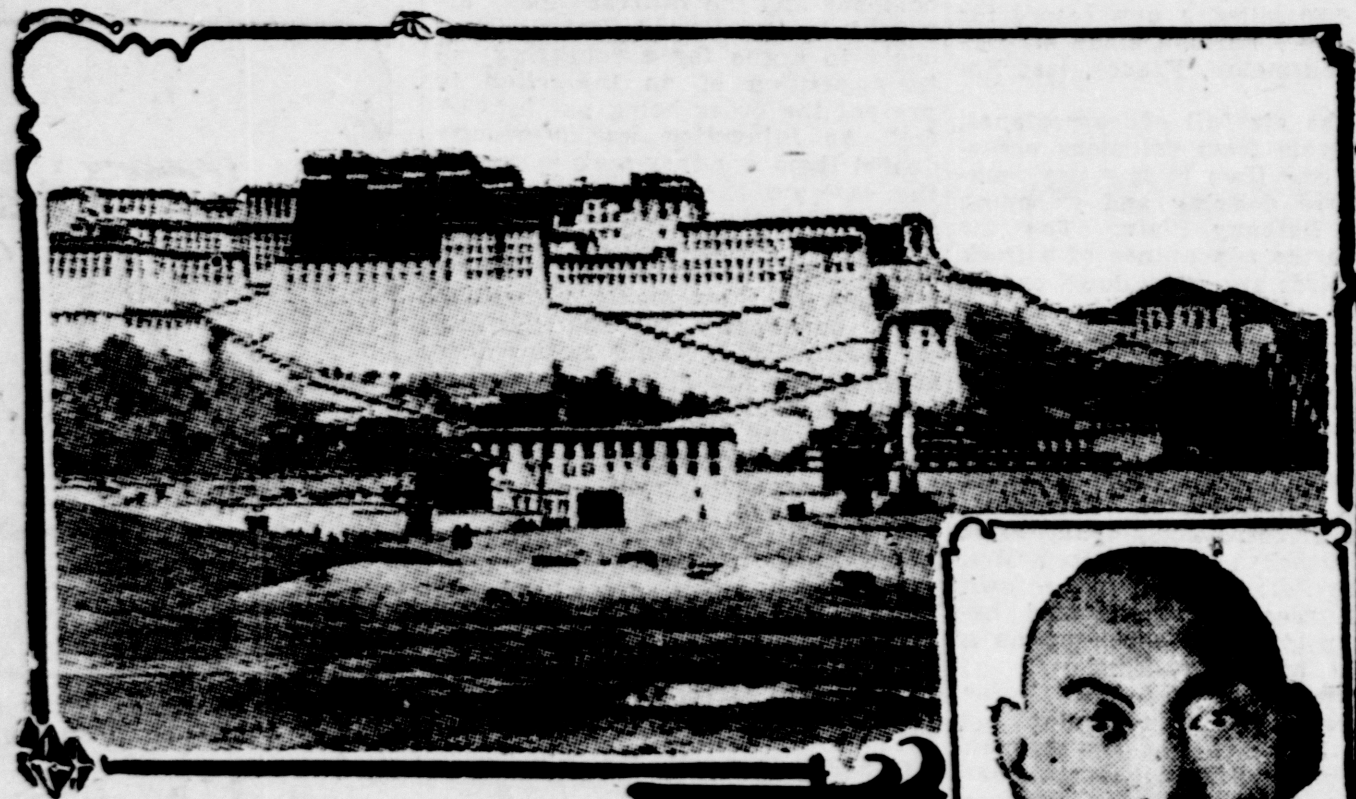

### RAWLINSON FOR COUNTY CLERK

To the Voters of La Crosse County:

I hereby announce myself a candidate for nomination on the republic ticket for the office of county clerk. This step is taken after mature deliberation the result of which is a conviction that the question of the value of the service rendered through this office to date, and whether its continuance is desirable, is a proper one to submit to the electors. I base my request for a return to the duties I am now performing upon my record in office. I solicit careful analysis of this record, with the belief that voters will be guided at the polls by their verdict in relation to it.

Respectfully,  
C. H. RAWLINSON.

## ICHABOD

(Written for The Tribune by W. M. Burgess.)

Now that the excitement of the so-called fight for the world's championship is past we may safely ask ourselves the question: "WHAT HAVE WE GOT IN RETURN FOR IT ALL?"

It is safe to say that never since the glorious Fourth of 1776 has our natal day of independence been so gloriously celebrated as in this year of grace 1910.

It is in this connection that the late fight brings to us, as a nation, the most humiliating reflections. Just at the very time when the better sense of millions of our citizens are seeking a saner celebration of our patriotic day we have made a common bruising match between two pugilists the chief event.

Before all the world we have permitted our one distinctly national patriotic holiday of the year to be signified by a colossal exploitation of the public by means of the most degrading of all forms of human encounter—a prize fight.

We have permitted our flag to be dragged down to the dust and gore of a sickly contest between two human brutes—on the very day of all others when that flag should be honored.

We have permitted the promoters of that slugging match to so organize

and capitalize that this event became the all absorbing topic of human interest so that the entire machinery of our national press became an instrument for free advertising and boosting it into world wide notoriety.

We sought to save the lives of our boys by repressing the wild passion for noisy explosives, and then we let loose upon them all the world of gamblers, toughs and rowdies, who flaunt before the youth of our land a spurious show of self defense and fill them with false conceptions of the glory of physical prowess.

Worse yet! This horde of men exploit the markets of production and commerce, turning millions of hard earned money through the gamblers' wheel and in a single day rob more young men of their honor and character than were ever lost to us by the fatalities of the toy pistol and the firecracker.

If we reflect upon the picture of our patriotism, as it now appears upon the canvas of the world's moving pictures, we have, as the chief feature of our chosen celebration day, what? A city of our own west converted into a veritable pandemonium—a so-called open city for the nation's wildest folk—with its doors all swinging hell-wards. In that city is a monster stadium erected for this carnival. Two thousand fevered Americans each pay an average of \$22.50 for a seat of 16 inches of rough board for one hour to witness, what? A ghastly show of a negro giant beating the face of a white has been into a pulp. Here is what one sporting writer says of Jeffries in the ring:

"Though they trained him until he looked like the eyes and shaped up like the true athlete, an athlete of power and force and determination, it was all on the surface. Idleness of years, dissipation and lack of the ordinary care the real athlete would have taken of himself, told the tale.

The stream of champagne that trickled down the great burly fellow's throat during all the years of indolence and ease when he imagined himself immune from the call of the ring, burned away his vitality and left him only a shell. The training that he did, far from making him the gladiator of old, the sound, perfect athlete and the game man, took away what little was left and left only a complete wreck of this once noble specimen of perfect manhood remained, and the white race is to blame for his pitiable spectacle and downfall.

"Jeffries didn't want to fight. 'Perhaps in his heart of hearts he knew that he was gone before he started.'"

From every city, town and village in the land telegraph, phone and printing press turned towards this Saturnalia, as though it was the beacon light of liberty—and all this impressed our youth with the belief that the fight was a more momentous event than speech of preacher, senator or president, or the declaration of independence.

And what is the issue of it all? What have we for it? A negro is inflated with a so-called world's championship and surfed with piles of money that will hasten his ruin while hundreds of men have already been involved in a race riot which the fight has started.

It will be said that, after all, this is a country of the people—the people want that kind of thing and the people get it, because they want it. THAT, we are told is the spirit of democracy.

BUT IS IT? It is not democracy, but anarchism which permits men to exploit the public for personal gain through theft and gambling.

The mission of government is to restrain the tendency towards evil—to make it "easy to do right and difficult to do wrong."

Government of city, state and nation shows its wisdom in curbing the wild tendency to use noisy and dangerous explosives for celebration and the nation will establish its wisdom by making a repetition of a prize fight impossible in future.

If any one of our states do not know enough to respect this national sentiment it is the duty of our president and government to declare that they must not be permitted to write "Ichabod" on our banners.

TO KILL THE DANDRUFF GERM Is the Only Possible Way of Having an Effective Cure

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. **A Soothing Sentence**  
When you have read the headlines through  
Which tell about an accident  
Your feelings are uncommon blue  
And life seems full of discontent  
Until you read the tardy phrase  
Appended by the scribe alert;  
How joyously it meets your gaze—  
"Nobody seriously hurt."

"Tis fortunate, you must agree,  
That in most every affair  
The line we so delight to see  
Is written or suggested there.  
The auto and the street car meet,  
Explosives high their strength assert;  
Then come these words serenely sweet—  
"Nobody seriously hurt."

The fruit crop fails, the trusts grow strong,  
The comet flares across the sky,  
The voice of protest shows how wrong  
Are half the arts that people ply;  
The umpire holds the mob at bay,  
The summer girl is still a flirt,  
And yet the old world goes its way—  
"Nobody seriously hurt."  
—Washington Star.

**A Dry Occasion**  
Brook, Ind., where George Ade practices gentleman farming, is right in the middle of the teetotal belt of Indiana.  
Last summer, on one broiling hot day a man came along in an automobile, having just patched up a puncture outside Brook.

He ran into the little village and saw a native standing in front of the general store. He stopped his machine and went up to the native.  
"Say, brother," he said, "will you tell me where I can get a good, cold bottle of beer around here?"  
The native took the automobile by the arm out to the middle of the road, pointed down its dusty length, and said: "The nearest place is fifty miles right down that road."—Philadelphia Saturday Evening Post.

**Paying for His Fun**  
"Now, Flaherty," said the magistrate, sternly, "the evidence shows that you threatened to assault these two men, Murphy and Finnigan, and that you actually assaulted Murphy. You are fined 2 pounds 10s."

"Praise yer honor," said Flaherty, "if I had assaulted Finnigan, too, would it have been 5 pounds?"  
"Certainly it would," replied the magistrate, firmly.  
"Thin here's the money," cried Flaherty. "Now, come on Finnigan, come out on the strait behind the court, and let me get my 5 pounds' worth."—Tit-Bits.

**Her Motive**  
"Mamma, when I say my prayers tonight, may I pray for rain?"  
"Of course, dear. But don't you think we've had enough rain?"  
"Not quite, Jennie Jones is going to have a picnic tomorrow and I ain't invited."—Cleveland Leader.

**The Stomach Hold**  
Col. H. N. Renouf, at the "Old Guard" banquet at Delmonico's, emphasized the importance to an army of a good commissariat.  
"You have perhaps heard," he said, "of the company of privates that a patriotic lady entertained one Memorial day at dinner."  
"It was a good dinner, and at its end a pretty maid servant entered with a superb dessert."  
"Dessert, sergeant?" she said to the stalwart young soldier at the head of the table.  
"Dessert?" the sergeant answered. "When I can get eats like this for nothing? Nixie! Not me!"—Washington Star.

During an equestrian performance a number of ladies in the front stood up, thus obstructing the view of those persons who were seated. In vain were they collectively requested to sit down, till at last a happy thought occurred to one of the sufferers. "What do you advise?" wearily. It seemed to the duke that Herbeck of late never agreed with him.  
"My advice is to wait. In a day or so arrest them under the pretext that you believe them to be spies. If they remain mute, then the case is serious, and you will have them on the hip. If, on the other hand, this invasion is harmless and they declare themselves, the matter can be adjusted in this wise. Ignore their declaration and confine them a day or two in the city prison, then publish the news broadcast. Having themselves broken the letter if not the spirit of the treaty, they will not dare declare war. Every court in Europe will laugh."

The duke struck his hands together. "You are always right, Herbeck. This plan could not have been devised better or more to my satisfaction." The duke laughed. "You are right. Ah, here is the chief."

Herbeck read the letter in part to the chief, who jotted down the words, repeating aloud in a kind of mutter: "A mountaineer, a vintner, a carter, a butcher, and a baker. You will give me their descriptions, your Excellency?"

Herbeck read the postscript. "But you don't tell him who—"  
"Why should he know?" said Herbeck, glancing shrewdly at the duke. "His ignorance will be all the better for the plot."

"Then this is big game, your Highness?" asked the chief.  
"Big game?"

"One is as big and powerful as a Carpathian bear. Look out," warned Herbeck.

"And he is?"  
"The mountaineer."  
"Oh, he is a little fellow, and hasn't grown his bite yet," said Herbeck dryly.

The duke laughed again. It would be as good as a play.  
"I thank you, Herbeck. You have neatly arranged a fine comedy. I do not think so clearly as I used to. When the arrest is made, give it as much publicity as possible. Take a squad of soldiers; it will give it a military look. Will you be on the field this afternoon?"

"No, your Highness," touching the papers which strewed his desk; "this will keep me busy well into evening."

The duke waved his hand cheerfully and left the cabinet.  
"Your excellency, then, really leaves me to work in the dark?" asked the chief uneasily.

"Yes," tearing up the note. "But you will not be in the dark long after you have arrested these persons. Begin with the mountaineer and the vintner; the others do not matter so much." Then Herbeck laughed. The chief raised his head. He had not heard his excellency laugh like that in many moons. "Report to me your progress. Unfortunately my informant does not state just where these fellows are to be found."

"That is my business, your Excellency."  
"Good luck to you!" responded Herbeck, with a gesture of dismissal.

When her highness came in from her morning ride she found the duke waiting in her apartments.  
"Why, father," kissing him, "what brings you here?"

"A little idea I have in mind." He drew her down to the arm of the chair. "We all have our little day-dreams."

"Who does not, father?" She slid her arm around his neck. She was full of affection for this kindly parent.

"But there are those of us who

## Indigestion Cured

Mrs. D. H. Yowell cannot praise Duffy's Pure Malt Whiskey too highly. It completely cured her after she had suffered from indigestion for years and when nothing else did her any good. She says it is the greatest remedy in the world for all stomach troubles.

"I wish to testify to the excellent results obtained through the use of Duffy's Pure Malt Whiskey. I had suffered for years with indigestion and had tried different remedies but received very little relief, so I tried Duffy's Pure Malt Whiskey and the effect was wonderful. It is the best stomach remedy in the world. I can recommend it most highly to any one suffering from indigestion or any stomach trouble." Mrs. D. H. Yowell, 321 So. Pine St., Richmond, Va.

is an absolutely pure distillation of malted grain. When taken at meal-time it stimulates the mucous surfaces and little glands of the stomach to a healthy action, thereby improving the digestion and assimilation of the food and giving to the system its full proportion of nourishment. This action upon the digestive process is of great importance, as it brings to all the tissues and organs of the body the nutriment necessary to their sustenance and indirectly to the whole system strength and vigor. It makes the old feel young and keeps the young strong and vigorous.

**CAUTION.**—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey and is sold in SEALED BOTTLES ONLY—never in bulk. must not accept day-dreams as realities; for then there will be heart-aches and futile longings."

"You are warning me about what father?" There was a little stab in her heart.

"Herr Carmichael is a fine fellow, brave, witty, shrewd. If all Americans are like him, America will soon become a force in the world. I have taken a fancy to him; and you know what they say of your father—no formality with those whom he likes. Humanly, I am right; but in the virtue of everyday events in court life, I am wrong."

She moved uneasily.  
He went on: "Herbeck has spoken of it, the older women speak of it; and they all say—"

"Say?" she cried hotly, leaping to her feet. "What do I care what they say? Are you not my grand duke, and am I not your daughter?"

In his turn the duke felt the stab. "You must ride no more with Herr Carmichael. It is neither wise nor safe."

"Father!"  
He was up, with his arms folding round her. "Child, it is only for your sake. Listen to me. I married your mother because I loved her and she loved me. The case is isolated, rare, out of the beaten path in the affairs of rulers. But you, you must be a princess. You must steel your heart against the invasion of love, unless it comes from a state equal or superior to your own. It is harsh and cruel, but it is a law that will neither bend nor break. Do you understand me?"

The girl stared blindly at the wall. "Yes, father."

"It is all my fault," said the duke, deeply agitated, for the girl trembled under his touch.

"I shall not ride with him any more."

"There's a good girl," patting her shoulder.

"I have been a princess such a little while."

He kissed the wheat-colored hair. "Be a brave heart, and I shall engage to find a king for you."

"I don't want any playthings, father," with the old light touch; and then she looked him full in the eyes. "I promise to do nothing more to create comment if, on the other hand, you will promise to give me two years more of freedom."

The duke readily assented, and shortly returned to his own suite, rather pleased that there had been no scene; not that he had expected any.

Now that she was alone, she slipped into the chair, beat a light tattoo with her riding-whip against her teeth, and looked fixedly at the wall again, as if to gaze beyond it, into the dim future. But she saw nothing save that she was young, and that the days in Dresden, for all their penury, were far pleasanter than these.

Meantime the chief of police called his subaltern and placed in his hands the peculiar descriptions. The word vintner caused him to give vent to an ejaculation of surprise.

"He was in here last night. I have had him followed all day. He lives over the American consulate. Among his things was found the uniform of a colonel in the Prussian Uhlanen."

"Ha! Arrest him tomorrow, or the day after at the latest. But the mountaineer is the big game. Do not arrest the vintner till you have him. Where one is the other is likely to be. But on the moment of arrest you must have a squad of soldiers at your back."

"Soldiers?" doubtfully.  
"Express orders of his highness." "It shall be done."

Considerable activity was manifested in the police bureau the rest of that day.

To return to Carmichael. He had never before concerned himself with resignations. Up to this hour he had never resigned anything he had set his heart upon. So it was not an easy matter for him to compose a

letter to the secretary of state, resigning the post at Dreiberg. True, he added that he desired to be transferred to seaport town, France or Italy preferred. The high altitude in Dreiberg had affected his heart. However, in case there was no other available post, they would kindly appoint his successor at once. Carmichael never faltered where his courage was concerned, and it needed a fine quality of moral courage to write this letter and enclose it in the diplomatic pouch which went into the mails that night. It took courage indeed to face the matter squarely and resolutely, when there was the urging desire to linger on and on, indefinitely. That she was not going to marry the king of Jugendheim did not alter his affairs in the least. It was all hopeless, absurd, and impossible. He must go.

### GARMENT WORKERS STRIKE

NEW YORK, July 7.—A strike of the 50,000 or more women workers in the International Ladies' Garment Workers was declared at a meeting of the committee of 45 today, to go into effect at 2 o'clock this afternoon. The workers demand recognition of the union, shorter hours, increased pay and better working conditions. It is said the

employers expect to have work on hand completed in Cleveland and Chicago, and that at the first sign that is being done, strikes will be called in those cities.

### CAPT. WEINELL IS "LAID OFF"

Hesitancy in Answering the Alarm when Motorboats Burned Cause of a Reprimand

Because he failed to promptly answer the alarm on the night last month when several north side boat houses and motorboats were burned, and probably thereby permitted their destruction when it might have been possible to save them had the department responded at once, Capt. Frank Weinell of fire company No. 4, north side, was called onto the "carpet" by the police and fire commission last night and was laid off for two weeks as a reprimand.

Capt. Weinell is one of the oldest men in the service, and there were some mitigating circumstances, which explains the light punishment, as failure to promptly respond to a call of fire is one of the most serious offenses possible in the department.

The captain maintained there was a misunderstanding, and that he believed another company was responding, and that the delay was only until he was set right and could get his apparatus to the scene thereafter.

### CROWN CARNIVAL QUEEN SATURDAY

Voting Contest will Be Held Open Until Tomorrow Because of the Wedding Tonight

Because of the wedding which will take place this evening at the north side street carnival, the officers of the amusement association and the Cosmopolitan Carnival Company decided to postpone the closing of the voting contest for the carnival queen until tomorrow evening. It is the plan of the officers to crown the queen Saturday evening, at which time the successful young lady will be presented with a diamond ring.

The feature this evening which will draw the largest crowd yet will be the wedding which is all arranged for. The bride and the groom are prepared to step on the platform at 8:30 o'clock when John F. Russell, justice of the peace of the twelfth ward, will tie the knot. The couple will arrive at the grounds in a hack which has been donated for the purpose by S. L. Meister of the city livery. The couple will receive a handsome present from the amusement association.

The carnival this year is without a doubt the best that has graced the streets of the north side. Everything is clean, refined and instructive. The attendants are all gentlemen seeking to give the best attention to the throngs which gather at the shows.

At the upper end of the carnival is the ever popular merry-go-round which is patronized every evening. Near to it is the Katzenjammer castle that place where they all go to laugh and have a good time. One of the sensations of the carnival, is Maybelle, the Cleopatra dancer. The dance is a truly Egyptian terpsichorean dance, recently enhanced by several serpents which have their part to play in the dance. Then there is Love, the butterfly dancer and several other numbers all of which are excellent.

The carnival has several of the strangest freaks ever exhibited in the city, in the alligator girl, the young lady, with a skin like an alligator, who is unable to talk or to realize her condition, the two-headed child, one of the strangest physiological phenomena that has ever been shown here, the Texas wonder, an animal which is so strange-like so many other animals that no classification of it has as yet been made, the human skinned cow and the elephant skinned horse, neither of which have hair on their hides like other cows and horses, the smallest donkey in the world, the midjet horse and the largest horse in the world today. All these are shown on the midway and every evening are the objects of curiosity of the crowds that visit them. Then there is the large India python, a snake that is 22 feet long and weighs 250 pounds. At the lower end of the midway is Backman's animal show where trained tigers, lions, monkeys and dogs are to be seen. Here Col. Paul Johanne every evening risks his life when he places his head in the mouth of a non-sensuous lion, which could crush him by snapping his jaws together. The real southern minstrel show is one of the favorites with the large crowds that appear every night. Besides these there are many other attractions including the human roulette wheel, the Ferris wheel, the fortune tellers, the palmists and the candy wheels and other privileges all of which comprise one of the most successful carnivals ever presented in the city.

The voting contest today shows Miss Kneebles heading the list with a total of 725 votes. It is rumored that a dark horse will show up at the last moment to take the prize. Following are the revised standings: Dolly Kneebles, 725; Minnie Whittenberg, 483; Laura Larson, 60; Elsie Ott, 52; Bessie Close, 45; Lila Anderson, 45; Marie Stallsmith, 60; Josephine Utka, 55; and Lily Riek, 80.

### SEVERE QUAKE IS FELT AT CLEVELAND

CLEVELAND, Ohio, July 7.—Some portion of the earth's crust about 1500 or 2000 miles from Cleveland was given a severe shaking up during the night, according to Father Odenbach's seismograph at St. Ignace college here, when today's record was taken. Father Odenbach is inclined to think that Iceland or the northern Atlantic bore the brunt of the quake.

The seismograph record shows a more severe quake than has been recorded in the last two years, the vertical shock being six millimeters. The quake began at 10:55:18, Cleveland time, and was over at 11:21.

Father Odenbach says the record is very similar to that of the quake which shook Iceland about a year ago.

### PEOPLE TO DECIDE LIGHT QUESTION

Special Committee Recommends that Municipal Plant Project Be Voted Upon

### FIGURES FROM OTHER CITIES

Reports Show that All Having Municipal Plants Are Saving the People Money

If the recommendation of the special light committee is adopted by the common council at its regular meeting tomorrow evening, the question of issuing \$50,000 bonds for a municipal lighting plant will be submitted to the people at the September election. This action was unanimously taken by the members of the committee last evening, after listening to a report obtained by City Attorney John F. Doherty from many other cities upon the question of street lighting.

The reports were from cities that light their streets under contract as well as from cities that have municipal plants and the average cost per lamp to cities using municipal plants was \$43.87 as against \$58.80, the average price of cities that have their lighting done under contract.

The following information was gathered by the city attorney showing what other cities are paying for lighting their streets:

## Danderine

GROWS HAIR, and we can PROVE IT!

A lady from Minnesota writes:

"As a result of using Danderine, my hair is close to five feet in length."

### Beautiful Hair At Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp has simply lost all its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions.)

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

FREE To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the

1903 for ten years at \$48.90 on all night schedule except on clear moonlight nights.

Racine, Wis.—Contract made in 1905 for five years at \$72 for all night and \$54 for 1 o'clock schedule. City is now considering a new contract.

Jacksonville, Ill.—Municipal plant at \$42 per lamp on moonlight schedule in residence district and all night schedule in business district. Saved the city money.

After the city attorney finished reading the reports from the foregoing list of cities, Alderman Rose

voted in favor of a municipal lighting plant and that owing to a technicality the vote was void, he believed the matter should again be submitted to the people for a vote of referendum. He said that in view of these facts it is either a question of saving the city money or making a long term contract with a corporation for which the city may later be sorry. He thought the facts as given in the reports from the list of cities read, should be placed before the people so they may understand what they are voting for. Upon motion made by Alderman

## "Time's Flight Turned Backward" SAGE AND SULPHUR

Made Her look Twenty Years Younger

### READ MRS. HERRICK'S SWORN STATEMENT

STATE OF NEW YORK } ss. Rochester, N. Y.

Nancy A. Herrick, being duly sworn, deposes and says: When I was a school girl I had a head of heavy, long, dark brown hair, that was so plentiful, rich and glossy, that it was the envy of many of my young schoolmates, and attracted the attention and remarks of strangers. After I was married and as I grew older, my hair commenced to come out just a little at first, but gradually as time passed it came out more and more, and began to turn gray. I was induced by many good reports heard of Sage and Sulphur, to try a bottle. My hair was quite gray and thin on top when I commenced using Sage and Sulphur, and you may imagine my satisfaction when I found that it was fast coming back to its natural condition, becoming thicker, darker, smoother and glossier than it had been for a long time. I continued the use of Sage and Sulphur and my hair is now in a splendid condition, as heavy and as dark and smooth as when I was a girl of sixteen. From my experience I believe it is one's own fault if they lose their hair, or let it get gray or harsh. It is now four years since I commenced using Sage and Sulphur, and still use it, and my hair still keeps thick, dark, smooth and glossy.

Sworn to before me this 14th day of July, 1910

obscurity of his alfalfa ranch near  
Los Angeles, never to emerge again  
as "the hope of the white race" or  
for any other pugilistic reason.

His return to the ranch will signal  
the ringing down of the final  
curtain on the career of one of the  
greatest lights in the history of the  
prize ring.

Jeffries will leave Oakland tonight  
and will go direct to his ranch with-  
out a stop. Within a week he ex-  
pects to be leading his old life of  
hunting and fishing, from which he  
was "called" more than a year ago,  
when Jack Johnson put the quietus  
on Tommy Burns at Rushcutters Bay,  
Australia.

Jeffries remained in seclusion all  
day today, refusing to see a single  
visitor including some of his most  
intimate friends. He is sullen and si-  
lent and it is said, goes into a wild  
rage whenever the Reno fight is  
mentioned in his presence.

### PRAYING FOR RAIN TO QUENCH FIRES

SAULT STE. MARIE, Mich., July  
7.—Residents of a half dozen dis-  
tricts in northern Michigan today are  
praying that predicted showers will  
materialize and drench the burning  
forests which in several districts are  
menacing buildings.

Fires are raging near Gaylord, Ot-

Blatz.—Blitz, I notify with pleas-

You look perfectly rational

fulness.

Blitz.—Of course. I followed your  
advising, consulted our house  
doctor, had the prescriptions pre-  
pared by your favorite druggist,  
Beyschlag on 503 Main street, and  
here I am as good as new.

Blatz.—You see the reason I like  
Beyschlag's drug store is, because  
he makes the preparing of pre-  
scriptions his principal business.  
He made now over 186,100 pre-  
scriptions for the people here. His  
stock of drugs and medicines is  
very complete, and that large  
number of prescriptions gives him  
the "know how."

Blitz.—Correct you are. I was so  
well pleased with the appearance  
of his drug store, and the way he  
put up my prescriptions, that  
from henceforth he will have all  
my patronizing also. Come let's  
have something, Blatz!

fighting the fires about that town.

### TO GIVE PEOPLE CORRECT WEIGHTS

At the regular meeting of the  
common council tomorrow evening  
a resolution will be introduced pro-  
viding for the protection of the people  
against getting short weights in  
purchasing coal. The resolution will  
give the chief of police power to  
hail any load of coal at any time  
and take it to the city scales to be  
weighed. It is said that many com-  
plaints regarding short weights have  
been made to the city authorities,  
and the committee on scales will  
make an effort to remedy the evil.

### RECOMMEND USE OF RIVER WATER

Goodwin and Harper Are  
Said to Favor Mississip-  
pi as Source of Sup-  
ply Here

That the water taken from the  
Mississippi river is the best for the  
use of the city of La Crosse, will, it  
is said, be the recommendation to be  
made in the report of Goodwin and  
Harper, experts, who have made an  
investigation of the conditions here  
and who will submit their report  
this evening.

A meeting of the common council  
as a whole, together with the com-  
mittees appointed by the board of  
trade and the La Crosse Manufactur-  
ers and Jobbers' club, will be held  
in the council chamber. All citizens  
interested in the proposition are in-  
vited to attend.

Goodwin and Harper visited this  
city upon two different occasions  
and made an investigation of the  
well system, the river water and the  
sedimentation plant. It is said that  
the report will recommend that wa-  
ter be taken from the river at the  
head of Barron's Island and pass  
through a sedimentation process and  
then sent through the mains of the  
city.

### AUSTRIA SPIES ON RUSS ARMY PLANS

ST. PETERSBURG, July 7.—The  
release of Guy Beringer, the Reuter  
correspondent, suspected of complicity  
with Baron Ernest Von Ungern-  
Sternburg in communicating Russian  
military secrets to Austria, has  
not lessened the general belief that  
the Austrian embassy in this city  
has been, and is the headquarters  
for an elaborate organization of spies  
upon Russian military plans.

Beringer proved that he had no  
transactions with Ungern-Sternburg  
another correspondent, but the latter  
is still held under suspicion of  
acting as a go-between in negotia-  
tions between Austrian Ambassador  
Count Leopold Berchtold and his  
Muscovite secret agents. It is prob-  
ably a complete change in the Aus-  
trian diplomatic staff will be nec-  
essary.

### CAN'T BAR BLACK FROM WASHINGTON

WASHINGTON, D. C., July 7.—  
Ministers in this city today were in-  
formed by their attorneys that there  
is no possible way to keep Jack  
Johnson from visiting Washington  
if he wishes to come. The lawyers  
declare that the negro pugilist, as  
an American citizen, is at liberty to  
come to Washington at any time he  
may choose to do so.

According to their view Johnson  
has the right not only to visit the  
capital, but he also may sit on the  
White house steps and climb up the  
stairs of the Washington monument;  
he may smoke cigars, eat peanuts  
and even ride in a "rubberneck  
wagon."

It doesn't usually help to tell a  
grievance. But so many men with  
grievances don't want help; they  
want to talk.

A man gets engaged just the way  
he gets into investments trusting  
to appearances; there is no credit  
on settlement day.

The joy ride was the result of a wager on the Jeffries-Johnson fight.

The white people could not stand for the sight and a number of them dumped an entire pail of fresh eggs on the negro's head. Then the bet was called off.

## PLANS TO FIGHT TUBERCULOSIS

Important Meeting to Form Permanent Organization to Be Held at City Hall Tonight

An important meeting will be held in the small council chamber of the city hall this evening for the purpose of carrying out the suggestions offered by the Wisconsin Anti-Tuberculosis association, and the completion of a permanent organization in La Crosse. Representatives of all the civic, educational and religious organizations of the city will attend the gathering and a large attendance is assured. This will be the first step toward bringing about a movement to fight the disease in La Crosse county. The following are the delegates appointed by some of the organizations as announced by Secretary Utermoehl of the board of trade, which has brought about the movement here:

## WARNS NEGROES AGAINST INSULT

JEFFERSON CITY, Mo., July 7.—In a statement issued today announcing that a reward of \$300 has been offered for the arrest and conviction of any persons participating in the lynching of two negroes at Charleston, Mo., last Sunday, Gov. Hadley also issues a warning to negroes of the state that they be careful not to offend whites over the result of the Jeffries-Johnson fight.

The governor says: "There is danger of race feeling leading to violence against the negroes and they should be particularly careful to give no occasion for offense. The negroes have no occasion to feel any satisfaction over the result of the fight. Its only significance is that a negro prize fighter beat a white man. Jeffries no more represented the white race than does Johnson represent such men as Booker T. Washington, or Professor Dubois. While I propose to do all that I can to protect the negroes, they must understand that only by their own conduct can they secure the respect of the people."

A special grand jury will convene next week to investigate the Charleston lynchings.

## CALLS NEGROES AND THE WHITES EQUAL

CHICAGO, July 7.—Declaring that the negro can no longer be called the white man's inferior, Prof. W. L. Hamilton, of the University of California, cited the outcome of the Jeffries-Johnson battle as proof of his contention in an address before the summer school of Northwestern University, which is creating much comment here today.

Prof. Hamilton pointed out the wonderful progress made by the negroes and advances the theory that the blacks were not a separate race but are simply tanned Caucasians. He predicted that within 300 years the black race in America would be extinct. The climate and intermarriage, he said, would accomplish this result.

## DECISION DOESN'T INTEREST MILLERS

MINNEAPOLIS, Minn., July 7.—Northwestern millers are not interested in the verdict rendered in the "bleached flour" case at Kansas City yesterday, representatives of the big milling concerns in Minneapolis stating that the character of the wheat used here does not require a bleaching process. They give their opinion, however, that the process is not injurious and discredit a verdict on such a technical subject rendered by laymen.

## RICHARDS WILL START FOR HOME

Charles Schreier, clerk at the Hotel Stoddard, has received a letter from R. L. Richards, the well known traveler, who has been ill in Australia for some time. The letter was written on the one-hundredth day that Mr. Richards had been confined to his bed, and stated that he would leave on the first steamer for his home in this city.

## DRAW COLOR LINE IN QUEEN CONTEST

Secretary Gibson in charge of the Carnival Queen contest of the North side carnival announces this afternoon that the color line has been drawn and no negro girls will be allowed in the contest. A number of north siders began voting for a colored woman on the north side, in an effort to embarrass the committee.

## And the things that do not concern a woman are generally the things that give her the most concern.

## VALUES THAT TELL

There is no value that tells as much as watch values. You can buy a watch at most any old price you want to pay.

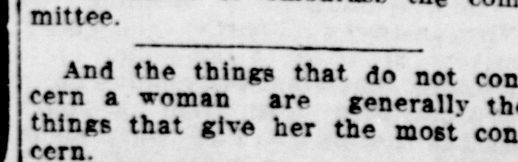

A cheap watch may be all right for a boy or a youngster, but when it comes to buying a watch for a "grown up" see that the value is there.

A watch may have a solid gold case set with diamonds, yet not be a good watch. It's the works that count. A well made watch will keep just as good time in a filled case as in any other kind.

## PROMISES SHOCK IN FIGHT TALK

Negro Preacher of Chicago Says He will Say Something to Make Whole Country Take Notice

WASHINGTON, D. C., July 7.—"I will have something to say on Sunday that will make this whole country sit up and take notice, when I preach my sermon on 'Lessons from the Johnson fight,'" announced J. Milton Waldron, pastor of the Shiloh Baptist church (colored) today. Waldron's congregation is one of the largest negro flocks in the United States. Waldron said today that he had talked the fight over with both whites and blacks.

"I believe," he said, "that because Johnson won, it will put a stop to prize fighting for good and all. The whites are not just to Johnson, but that does not change the principle of such a fight, which was wrong no matter who won. The newspapers are the most to blame for exploiting the fight beyond all reason."

"If there are negroes who attach any importance to the fight that it does not deserve, certainly the white people cannot claim that their race has been more rational."

"Johnson should be allowed to come to this city and to go on the stage, just as John L. Sullivan and other pugilists have done. I will make a protest to the commissioners of the city, if they try to bar Johnson."

"As to the fight pictures, I am glad they are barred."

## TAX FERRETS GET SOCIETY'S VALUABLES

CHICAGO, July 7.—Chicago society women will be unable longer to evade the tax ferrets. A big scrap book containing clippings taken from the society columns of the daily papers here has been compiled by the board of review. These clippings tell just what the society women wear in the way of diamonds, brooches, tiaras, pearl ropes and pendants.

The book will be used as a guide by the assessors. Clippings of the distributions of bequests, payment of alienation damage suits have been pasted in the big scrap book. Society column tables of wedding gifts are also pasted in the book, which has been styled the "doomsday book" by its keepers.

## AIRSHIP SENDS CURLS FLYING

MINEOLA, L. I., July 7.—George Russell, aviator, does not wear those rats and gainsborough curls which today adorn his aerodrome on Hempstead Plains, but it's a safe bet the real owners will never call for them.

Society women flock to the plains these days to see the aeroplanes go up. Yesterday a bevy of them stood behind Russell's machine. They did not know he was preparing to ascend, and when his gigantic propeller began to whirl, things happened. The air currents tore off hats and rats and curls. High into the air went the rats and curls and higher went the shrieks of the women.

When the rats came down, Russell collected them and offered to restore them to their owners—but none would admit ownership.

## SEVERE EARTHQUAKE IS 1,500 MILES OFF

WASHINGTON, D. C., July 7.—The most severe earthquake reported here since the great shock in the West Indies in 1907 was shown today on the seismograph at Georgetown University. Father Lorndorf estimated that the earthquake was 1,500 miles away. The quakes continued for about 15 minutes, the maximum shocks being from 12:01 to 12:03 a. m. Father Lorndorf said that the quake might have centered at some point in the Atlantic ocean, but that it had every evidence of having been extraordinarily severe.

## SLEUTHS SEEK GUNNING PACT

Diplomatic Detectives Believe Russia and Japan Agreed to Whack Up Manchuria

WASHINGTON, D. C., July 7.—Government experts on far eastern affairs are searching for proof of a secret agreement between Japan and Russia for the partition of Manchuria adverse to the United States. For months past these diplomatic sleuths have been convinced that some such understanding has been reached.

The railroad agreement just signed by both powers provides for the elimination of competition between the Russian and Japanese systems in Manchuria. It is suspected that it is but a blind to deceive the other powers. Its reiteration of intention of the two countries to preserve the status quo is regarded as more than a tinkling phrase which has been used repeatedly to distract attention from the real underground working of the two foreign offices to secure a firm grip on China's richest province.

A complete upheaval in the far eastern diplomacy is looked for within the next few months. It is expected that it will bring about a re-alignment of the powers which will probably shake the British alliance with Japan. Whatever the ostensible purposes of Russian and Japanese diplomacy, the western world is practically convinced that the recent reconciliation of the two former enemies means a new phase of oriental politics. The "open door" is shut and bolted in Manchuria and the gospel of equal opportunity has become obsolete.

The negative policy of Great Britain is regarded as being the principal cause of the change. The English foreign office has sided with Russia and Japan in recent negotiations as against the United States, Germany and France, with the result that British prestige in the orient has steadily decreased, to the advantage of Russia and Japan. It is not now expected that Great Britain will make an attempt to reverse itself by opposing the Russian and Japan schemes for the partition of Manchuria.

## TAFT'S AIDS VISIT ALASKA

Cabinet Members of "Regular" Organization to Report on Conditions Among Guggenheims

WASHINGTON, D. C., July 7.—It was announced definitely today that Attorney General Wickersham and Secretary Nagel of the department of commerce and labor, will visit Alaska this summer on a tour of general inspection. They will leave about July 16, to be gone about six weeks.

During the recent investigations by the senate of the appointment of federal officials in Alaska the attorney general promised Delegate Wickersham of Alaska that the department of justice would investigate the conditions in Alaska and it is understood that the attorney general himself will look into the situation there. Secretary Nagel has a great many Alaskan interests in his department. He will give special consideration to the seal industry.

## JEFF COLLAPSED BEFORE THE FIGHT

SAN FRANCISCO, Cal., July 7.—His closest friends are urging Jeffries to undergo an examination by a specialist in nervous disorders and also to have his right eye examined by an optical expert. They fear that the strain of the fight completely wrecked Jeffries' nervous system and that it will be a long time before he recovers his health. Roger Cornell, who had charge of Jeffries' physical training, is most fearful for the boxer's maker's welfare.

"Jim broke down mentally and his nerves apparently went all to smash while he was in the rubbing room at Moana on the day of the fight," he said. "At the eleventh hour he almost collapsed under the strain and went into the ring as weak as a dish rag and practically helpless. We, in his camp, thought it was only a temporary trouble and that work might help him and we fully expected to see him shake off his nervousness like a duck shakes water as soon as he found himself facing Johnson. But we were wrong and the poor fellow was simply a punching bag for Johnson."

A local sporting writer who was in Jeffries' camp for months before the fight, said today:

"Jeffries was defeated by his own disposition. His nerves went to smash at noon on the day of the fight but that was not the ultimate cause of his losing the fight. Jeff has a disposition all his own and he can be about as sullen and 'ornery' as any human can be. His trainers, not wishing to cross him in anything let him do about as he pleased and the result was very evident. The instant he stepped into the ring."

over the telephone and a woman, in an excited way, told him to call at 418 at once to attend a woman who had been shot. The doctor asked her to repeat the street number, whereupon she said she was fainting and the receiver dropped. It is thought that Mrs. McGovern stepped to the telephone herself, after she had been shot, and called the doctor.

When the officers went to the house they made a search for the revolver but were unable to find it. Several boxes of cartridges were discovered about the house, some of 22-calibre and others of 32-calibre. One bullet struck the floor and was later found under the carpet. The weapon, however, has not as yet been located.

That the couple had had trouble the night before the shooting is evident from a story told by the police. On Tuesday night, shortly before midnight, a woman telephoned central police station and asked for an officer go to 420 North Fourth street and tell Mr. Dickson to go at once to 418 Avon street, where a sick woman desired to see him. The officer asked who was talking and at first she refused to give her name, but later she said she was a sister of Mrs. McGovern.

An officer was then sent to Dickson's room and informed of what the woman had said. He declined to go, saying that he had been there during the afternoon and evening and he did not believe she was ill. About 4 o'clock in the morning an other telephone call came to the police station from the same woman, repeating the request to notify Mr. Dickson to go at once to the north side. It is believed the woman had planned to commit suicide in the presence of Dickson the night before.

Reports from the hospitals today were that the injured persons were doing nicely and neither is in a serious condition.

## SUGAR TRUST TO FIRE HEIKE OUT

NEW YORK, July 7.—When the directors of the American Sugar Refining company meet next week, they will pass upon the resignation of Charles R. Heike as secretary of the holding company and as secretary-treasurer of the American Sugar Refining company of New York. It is expected that the resignation will be accepted.

Heike resigned on his conviction of conspiracy to defraud the government on underweighing imports of sugar. He will be sentenced at the court, but his conviction is to be as sentence is expected, so soon Martin, his attorney will begin habeas corpus proceedings to keep him out of the penitentiary.

The officer asked who was talking and at first she refused to give her name, but later she said she was a sister of Mrs. McGovern.

An officer was then sent to Dickson's room and informed of what the woman had said. He declined to go, saying that he had been there during the afternoon and evening and he did not believe she was ill. About 4 o'clock in the morning an other telephone call came to the police station from the same woman, repeating the request to notify Mr. Dickson to go at once to the north side. It is believed the woman had planned to commit suicide in the presence of Dickson the night before.

Reports from the hospitals today were that the injured persons were doing nicely and neither is in a serious condition.

## VALUES THAT TELL

There is no value that tells as much as watch values. You can buy a watch at most any old price you want to pay.

A cheap watch may be all right for a boy or a youngster, but when it comes to buying a watch for a "grown up" see that the value is there.

A watch may have a solid gold case set with diamonds, yet not be a good watch. It's the works that count. A well made watch will keep just as good time in a filled case as in any other kind.

We show a full line of watches in all styles or sizes and at all prices. Included in our assortment you will find

HOWARD WATCHES  
ELGIN WATCHES  
WALTHAM WATCHES  
HAMILTON WATCHES, Etc.

Each one will be found to be the "utmost" in watch value.

# S.S.S. CURES BLOOD HUMOR

The skin is provided with countless pores and glands, through which an evaporation is going on continually, day and night. This is Nature's method of regulating the temperature of our bodies, and preserving the natural appearance of the skin. These pores and glands are connected with tiny veins and arteries through which they receive from the blood the necessary nourishment and strength to preserve their healthy condition.

Just as long as the blood remains pure the skin will be free from eruptions, but when the blood becomes affected with acids and humors its nourishing and healthful properties are lost, and its acid, humor-laden condition causes inflammation of the delicate tissues and fibres of the pores and glands, and the effect is shown in Eczema, Tetter, Salt Rheum, Pimples, Rash, etc.

The humors and acids get into the bloodstream a deranged and inactive condition of the system. Those members whose blood it is to collect and expel the refuse matters of the body fail to properly do their work, and a surplus amount of waste matter is left in the system.

Acne, Tetter, Salt Rheum, Pimples, Rash, etc., are valuable only for what ability they possess to keep the skin clean, all itching and temporarily reduce inflammation. They cannot cure skin trouble because they do not reach the blood.

S. S. S. cures Skin Diseases of every character and kind because it is the greatest of all blood purifiers. It goes into the circulation and removes the acids and humors that are causing the trouble, builds up the weak, acid blood and completely cures Eczema, Acne, Tetter, Salt Rheum, Pimples, Rash, etc., and every variety of skin eruption and affection. When S. S. S. has driven out the humors and acids from the blood, every symptom passes away, the skin is nourished with rich, healthy blood, the tissues are relieved of all inflammation, natural evaporation again takes place and the skin becomes soft and smooth and perfect.

## HERO OF NEGROES REACHES CHICAGO

CHICAGO, July 7.—A vari-colored crowd of 10,000 persons, including whites, negroes and a sprinkling of Japanese and Chinese, turned out to pay homage to Jack Johnson, heavyweight champion of the world, when he arrived in Chicago at 2:05 this afternoon. When Johnson alighted from his private car on the Overland Limited, he found himself jammed in a swirling, shouting mob. The big negro's face was illuminated by his famous display of golden dentistry and he tried to say something but could not make himself heard in the din. He attempted to shove his way through the mob to a waiting carriage, but did not move.

When finally the police forced a path through the crowd, Johnson entered the carriage and was driven homeward. The crowd, cheering at every step, followed closely behind the carriage and as the procession moved up the street it was augmented by scores of decorated automobiles which had been kept in the side streets, away from the station.

So thick was the jam about the champion's car that newspaper photographers who had been detailed to snap the black pugilist upon his arrival were unable to get pictures of him until after he had made his way clear of the crowd

## OUTCASTS BOBBLE SECOND

Take Revenge on Dunbar  
and Drub Him by Score  
of 7 to 3; Carter's  
Batting Feature

La Crosse and Wausau divided the double header in the sand lot near the Interstate fair grounds yesterday afternoon, the visitors grabbing the first one by the score of 7 to 4 and the Outcasts taking revenge in the second winning, 7 to 3.

No, gentle reader, that bombardment was not a belated Fourth of July celebration but a succession of hard and heavy hits, three of them triples by Messrs. Carter, Dolan and the remainder of the horseshide lumbers from the Lumberjack town. Barngrover seemed easy for them and they willowed into his slants at will.

Dunbar had his slobber pellet and a tantalizing drop which combined with a Gaelic grin was too much for the Outcasts in the first game. In the eighth, however, they seemed to wise up to it and Lakoff relieved him to hold the game safe which he did in good style.

Carter's batting in the first game was a feature. The former Eau Claire outfielder getting four hits, two of them triples. Dolan hit three times out of three trips to the rubber, one of them being a threebagger.

In the first Cahill singled and scored on Carter's triple to center. Carter scored late on Dolan's slam to left.

In the third, Carter singled to Ward and was safe when no one covered the sack. He counted on Dolan's triple to left. Dolan later scored when Doll bobbled Brody's grounder.

In the sixth La Crosse counted twice. Kuehn hit to Bond, one of

the slow rolling, twisting variety and was safe. Barngrover slammed one between short and second to centerfield and Bunney scored when Walliser mused Ward's slam. Doll's hit to center counted Barngrover.

In the seventh Carter hit to center stole second and scored when Klein dropped Du Chien's slam in the garden.

In the eighth the Outcasts made a desperate and game effort to tie up but could only get two runs. Ward who hit to left and Doll who was transported with charge scor-

ed, the former on Field's hit to left and Shorty when Zalusky filed to center.

The visitors annexed the last two in the ninth when Carter scored Bond, who had been walked, on a triple to right and when Colonel Nick tallied one himself on Dolan's hit to center. The official score:

The Second game

Bond trotted out Dunbar for the slaughter in the second after his rest of a few innings after Lakoff, the "Firecracker Kid" relieved him and he was doomed to be the victim of a sweet revenge.

Whittaker hurried for the locals and managed to wiggle across with a few scattered hits that scored but three runs for the Lumberjacks. In this game the bombardment was still in the waning hours of the afternoon while Umps Agur thundered the balls and strikes in place of McDermott who had been shipped during the night.

In the second round Zalusky doubled to left up against the fence and scored on Klein's hit in center.

In the next inning Ward hit to center and scored when the ball eluded Cahill who had run up on it and rolled out to the flag pole where the pennant once waved so proudly for two seasons. Ward came all the way home on the bouncer. In this round the visitors annexed two of their counts. Brody was walked and Walliser attempted to sacrifice and was safe when Doll erred in turning to catch Brody at second. Both runners scored when

Bond clouted the pill into right field.

Zalusky bunted to third and Ward ran over third, tried to return and scored when he changed his mind and ran to the plate getting Bond's heave in the middle of the back. Keln's hit to center scored Field and Zalusky.

In the next inning Wais singled to center and scored Doll who had slammed one of the over heated kind to Dunbar and Zalusky, who had poled one into center which Cahill dropped after a long, hard run.

Fennel relieved Dunbar after this round. In the eighth Wausau added its last count, Bond scoring on a sacrifice by Carter. Carl was safe at first on Doll's mussy work, went to third on Cahill's drive to center and counted on the long sacrifice fly. The official score:

## ARCADIA FORFEITS GAME

The baseball game between Blair and Arcadia which was played at the Fourth of July celebration at the latter place was forfeited to Blair, 9 to 0, when the Arcadia nine refused to continue the game after a decision at the plate whereby Blair tied the score.

Toraason, the "Terrible Swede," for Blair pitched his usual strong game and but for a few bad errors his teammates in the first inning would have scored a shut out. Zeller for Arcadia, also pitched good ball and managed to keep the hits scattered.

LANGFORD ACCEPTS  
JOHNSON'S TERMS

Manager Wires He will Post  
\$20,000; May Fight  
Soon; Sammy Near-  
ly Beat Him Once

NEW YORK, July 7.—Sam Langford, who grins when hit with the sharp edge of an axe, will not let John Arthur Johnson rest. Joe Woodman, manager of the big negro, has wired to friends in this city, that on behalf of Langford, he will accept Johnson's offer to fight for a side bet of \$20,000.

In Kearney, Neb., Johnson declared he would meet Langford if the latter could post a \$20,000 side bet. Woodman wired that he would post the \$20,000 as soon as Johnson arrived in New York and posted his money.

The feeling between the two negroes is bitter. Langford positively refuses to take Johnson seriously. Before the Jeffries fight, Langford bemoaned the fact that Jeffries was going to kill that "nigger Johnson" before he got a chance to do the job.

Langford could give Johnson a run for his money. In Boston five years ago, Langford gave Johnson a terrific argument, Johnson beat him up in the first five rounds, and then Langford tore in. For the remaining ten rounds Langford had Johnson stalling and hanging on for dear life, though Johnson outweighed him fifty pounds.

Since that time Langford has increased his weight to 180 pounds. He declares he will follow Johnson all over the world, if necessary, to make him fight. Only a few months ago in Baltimore when the negroes met in a negro club, Langford took off his coat and offered to whip Johnson on the spot.

By Mr. Hulberg:

To the Honorable Board of Supervisors of La Crosse County, Wisconsin:

Gentlemen:—Your special committee to whom was referred the matter in regard to the escape of prisoners from the county jail, wish to report that we have fully investigated into the matter and believe that the escape was due to the carelessness of the turnkey.

We find that the two prisoners who had been sentenced to two years, were, contrary to usage confined with other prisoners on the first floor instead of in cells prepared for such prisoners. The day of the escape all prisoners were turned out of the cage into rooms or corridors and left there while the turnkey left the city, no guard or person left in charge. We do not believe there are any more chores about the building than one trusty can take care of. There were three trusties on the grounds the day of the escape, all of whom must have heard the noise caused by the breaking of walls and none made any attempt to prevent the escape.

We do not believe that any more liberties should be accorded prisoners of either sex than is absolutely necessary to their health, as our understanding is that they are there for punishment and not for pleasure.

We cannot too severely criticize the practice of allowing prisoners and visitors together without the presence of an officer. This happened once at least, to our knowledge.

Respectfully submitted,  
OSCAR H. HULBERG,  
W. F. BAKER,  
T. G. AIKEN,

There was a dip in corn prices following the opening much the same as in wheat and this followed by quick rally. July sold 58% to 58 1/2 and rallied to 58 1/2. September sold off 1/4 to 61% and recovered to 61 1/2. The later months ruled strong with best support around 59% September and 61% cents May on the rally.

Oats followed the trend of wheat. July opened at 40% to 40% and reacted to 39%. September opened at 39% to 39%, sold to 39% to 39%.

Provisions had a weak undertone. There was good selling of the list thought to be for the account of the packing interests. At slight recessions there was good outside buying which held the decline in check.

Close—July wheat closed 7-8 lower, September 1-2 lower and December 1-7-8 lower. July corn 3-8 lower, September 7-8 and December 5-8 lower. July oats 1-5 lower and September and December 3-8 lower. Provisions steady.

Richie's unsteady spasm in the eighth let the locals tie the score at 2. The Pirates could make no headway against him until he walked two men to start the eighth. Then it was all off. Leifield relieved Camnitz in the eighth and the southpaw stopped the Cubs. In the eleventh Wilson beat a bump to Zimmerman. Gibson sacrificed, Simon hit for Leifield and his out, short to first, moved Wilson to third. Byrne walked and stole second. Leach hit to Zimmerman, who made a careful leave to first.
